

RAILY L. ALMERON JR II

Quezon City, Philippines | yliarnoremla@gmail.com | railyalmeron.vercel.app | 09064458329

SUMMARY

Recent IT graduate with hands-on experience in UI/UX design, front-end development and RF field engineering. Skilled in Figma and Wix Studio for wireframing and prototyping, with practical exposure to spectrum analysis, antenna testing and field mapping tools like QField and Maps.me. Strong problem-solving, communication and troubleshooting skills, with a commitment to continuous learning across design and technical disciplines.

ACADEMIC EXPERIENCE

Technological Institute of the Philippines

Cubao, Quezon City

BS in Information Technology, Digital Arts and Design

June 2026

Thesis: PubSpeaker: A Mobile Application for Enhancing Public Speaking through AI-Driven Feedback

Relevant Coursework: System Administration, Frontend Development, Game Testing and Quality Assurance, User Interface Design, IT Hardware and System Support

EXPERIENCE

INES Solutions - RF Interference Engineer Trainee

July 13 – Present

- Performed source verification by testing paddle and Yagi antennas to determine whether an interference source was active or not active
- Conducted source tracking to locate signal sources (Paddle and Yagi antennas) and assessed their active/inactive status in the field
- Used spectrum analyzer equipment to detect, measure and analyze RF signals during interference investigations
- Utilized QField and Maps.me for field mapping and geolocation of interference sources during site surveys

PRIME Philippines - UI Designer Intern

August 12 – December 12, 2025

- Designed user interfaces and wireframes for PRIME Philippines and GreatWork Global
- Designed and built the user interface for EDUCO Solutions, implementing responsive web design principles to enhance user navigation
- Co-developed the GreatWork Global website, translating wireframes into functional web pages while optimizing cross-browser compatibility
- Collaborated with cross-functional development teams to translate Figma interactive prototypes into responsive front-end code, ensuring high fidelity to the original designs

CERTIFICATIONS

Philippines Drive Test Engineer

July 20, 2026

- (Huawei) PRO RF iLearning Course for DTE/DTA/RNO

Installing and Configuring Computer Systems

December 9, 2025

- Technical Education and Skills Development Authority (TESDA), eTESDA Online Program

SKILLS & INTERESTS

Technical Skill

- UI Design: Figma, Framer, Canva, Wix Studio
- Front-End Development: HTML, CSS, JavaScript, TypeScript, ReactJS, React Native
- IT & Systems: System Administration, Computer Troubleshooting
- QA Testing: Game Testing, Bug Reporting, Regression Testing
- RF & Field Tools: Spectrum Analyzer, Paddle Antenna, Yagi Antenna, QField, MAPS.ME
